Subject: Happy New Year - Are you still involved in the off-site soil contamination for Navy-Bethpage?

Hi Henry and Steve - I'm occasionally asked by mgmt if Navy/Bethpage will be getting the CA725 (human exposures currently under control). Just wondering if either of you are still working on this, and if so, what is the general time-frame for completing any work that would make this happen? Or, has this been transferred to the new Branch/Section?

Thanks, and Happy New Year.
Carol
